

STEDPRENE FR

Product Description

Flame resistant Neoprene coated polycotton

Product Benefits

- Certified to NFPA 1971-2013
- Flame resistant
- Resistant to low temperature
- Water resistant
- Resistant to shrinkage

Specification

Specific Weight

CAN/CGSB-4.2 m90 method 5.1

Breaking Strength

CAN/CGSB-4.2 m90 method 9.2

Tearing Strength

CAN/CGSB-4.2 m90 method 12.1

Hydrostatic Resistance

CAN/CGSB-4.2 m89 method 26.5

Cold Resistance

ASTM D-2136

Flame Resistance

Fed. Std. 191A method 5903

Thermal Shrinkage

NFPA 1971-2013

Heat Resistance

NFPA 1971-2013

Imperial System

13 oz/yd² ± 2

W: 75 lbs minimum

F: 40 lbs minimum

W: 3 lbs minimum

F: 3 lbs minimum

Face: 85 psi minimum

Back: 85 psi minimum

Pass -40° F

Pass
