

# StedAIR® PREVENT

THE ONLY AIR PERMEABLE PARTICULATE-BLOCKING  
BARRIER WITH 99.99% BLOCKING EFFICIENCY

99.99% blocking efficiency after 100 wash/dry cycles at a verified ISP

The **highest THL** in the industry.

Superb durability.

Highly air permeable.

Superior particulate blocking performance.

& **COMFORT  
PROTECTION...**  
A COMPROMISE?  
**NOT  
ANYMORE!**

# StedAIR® **PREVENT**

Stedair® PREVENT combines outstanding breathability, high permeability and our unique construction that enables superior comfort and protection.

**TOTAL HEAT LOSS**  
HIGHER IS BETTER

THL is the ONLY property recognized by NFPA 1971-2018 for protecting fire fighters from heat stress.

When tested with an outer knit layer, Stedair® PREVENT produces results that are 80% higher than the minimum requirement.

**NFPA 1971-2018 Test: 8oz/Yd<sup>2</sup> knit (20% NOMEX®/80% Lenzing®)**

Unlike other competitive particle blocking barriers, Stedair® PREVENT offers the best balance of protection and comfort.
