

STEDPRENE FR

Product Description

Flame resistant Neoprene coated polycotton

Product Benefits

- Certified to NFPA 1971-2018
- Flame resistant
- Resistant to low temperature
- Water resistant
- Resistant to shrinkage

Specification

Imperial System

Specific Weight

CAN/CGSB-4.2 m90 method 5.1

13 opsy \pm 2

Breaking Strength

CAN/CGSB-4.2 m90 method 9.2

W: 75 lbs minimum

F: 40 lbs minimum

Tearing Strength

CAN/CGSB-4.2 m90 method 12.1

W: 3 lbs minimum

F: 3 lbs minimum

Hydrostatic Resistance

CAN/CGSB-4.2 m89 method 26.5

Face: 85 psi minimum

Back: 85 psi minimum

Cold Resistance

ASTM D-2136

Pass -40° F

Flame Resistance

Fed. Std. 191A method 5903

Pass

Thermal Shrinkage

NFPA 1971-2018

Pass

Heat Resistance

NFPA 1971-2018

Pass

Recommended End Use Applications

- Firefighters Turnout Gear
- Cuff reinforcements
