

NEXT GENERATION OF PARTICULATE HOOD TECHNOLOGY

Fireground particulate exposure is one of the most persistent risks firefighters face. Stedair® PREVENT CLEAR was engineered to meet that challenge head-on — combining TWO of our most groundbreaking technologies:

Stedair® PREVENT: The industry's only air-permeable particulate barrier with 99.9% particulate-blocking efficiency, trusted worldwide for breathability and comfort.

Stedair® CLEAR™: A revolutionary leap in protection, developed with PFAS-free technology.

Together, these technologies form a next-generation particulate barrier that delivers protection without compromising breathability, durability, or comfort.

Part of Stedfast's next generation of PFAS-free technology for the fire service.

Certified to OEKO-TEX® Standard 100

Certified to NFPA 1970 (2025 Edition)

- PFAS-free membrane technology
- Blocks 99.9% of particulates (0.1–1 microns) after 200 washings
- Air-permeable
- Highest THL
- Superior durability, tested after flexing, heat exposure, UV exposure, and 200 washings
